

## Research Progress Summary

A.

own seed storing in hermetic bags in Shyamganj, Netrokona. They are using the seed for their own production and the extra amount is sold to neighbors at a higher price. Storage of seed in hermetic bags is becoming popular among the farmers of Mymensingh, Netrokona and Jessore districts as it has a higher germination rate compared to seed purchased from the market. Women farmers have taken this as an income generation activity (IGA).
